SWARMIUS could be described as Trans-Classical/ Post-Prog-Alternative - fiery grooves, soaring melodies, probing ballads & multi-level syncopations that draw from rock, jazz, the Yoruba music of Nigeria, Brazil, Eastern European Klezmer, Surf music, J-Pop, video games, electronica, hip-hop, vaudeville, European classical and more.

Since their 2006 debut at Kosovel Hall in Ljubljana, Slovenia, SWARMIUS has performed in venues ranging from concert halls to raves, pushing musical boundaries with original compositions that merge African, Latin, & Middle Eastern "grooves" with rock & hip-hop, inside the harmonic and melodic depths of classical music.
